

5-STEP

FORM•Z DEMYSTIFIED WORKSHOPS

5 STEP INTERFACE

AND FORMULATOR PACKAGE

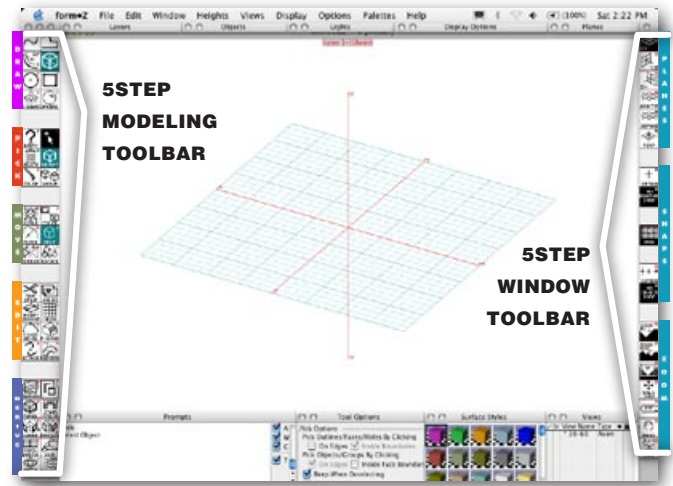

The 5-Step Interface® In 1998, Architects Toolbox introduced this essential plug-in, which absolutely flattens the form•Z learning curve by arranging and organizing the modeling tools into five separate subpalettes, called Draw-Pick-Move-Edit-Derive. The 5-Step Navigation tools and other tweaks open a window into the intuition behind the logic. This unique approach can only be found at Architects Toolbox. Beginner and intermediate settings allow you to further customize to your liking. Includes installation directions and LiveInteractive support. Call for details and a free demonstration **\$95**

Z-Key KeyShorts® Add over 110 additional methods of keying in the most essential modeling and navigation tools. Your fingers will dance! Includes 1 hour One-to-One Z-Key Skillset **\$45**

Formulator Package, Includes our a large laminated desktop reference, keyboard template, monitor template and a forty five minute One-to-One Skillset that takes you through the essential steps along with a 5-Step Quickstart Guide. **\$165**
