form•Z Basic

Modeling and Animation with Flat-Shaded Rendering

When purchasing form•Z, you have two options to choose from: **form•Z** (aka **form•Z Basic**) or **form•Z RenderZone Plus**. Both have the same advanced modeling and animation features, differing only in their rendering capabilities. With **form•Z Basic** you can render with only flat shaded rendering, unlike RenderZone, which allows you to create photorealistic renderings and animations.

form•Z RenderZone Plus!

Modeling and Animation with Flat-Shaded Rendering

In **form•Z RenderZone Plus**, you get all the advanced modeling and animation capabilities of basic form•Z along with the RenderZone technology that generates photorealistic renderings using either computer generated patterns or digital images. With version 6.5, the "Plus" designation indicates the inclusion of a radiosity global illumination solution which was previously sold as a separate plug-in, now included at no extra cost!
